## EXPERIENCE

### Teclar LLC

#### Software Engineer

may 2022 - may 2023

Develop the necessary applications to help your business grow. Access to the latest libraries and frameworks (Svelte.js, Fluent Svelte). Support and improvement of existing projects.

### Fastech IT Academy

#### React.js Mentor

january 2023 - August 2023

I taught the students the libraries and frameworks I knew and got them interested in programming. I prepared for job interview questions. We did several projects together

### Mars IT School

january 2023 - present

#### Frontend Mentor

Communicate with those new to programming and share my knowledge with them.

### Softwhere.uz

january 2024 - present

#### React.js & React Native Developer

Since I started working, I have participated in several real projects. I worked on new projects. I updated the old projects. I corrected the mistakes made by the programmers before me.
